

Senior Project Manager

JW Fowler is a heavy civil contractor specializing in deep sewer pipelines for communities on the west coast. From a small, family-owned and managed company, we've grown to serve the infrastructure needs of communities throughout Oregon, Washington, and California. Our passion for construction motivates the team to continuously grow and improve.

Specific Responsibilities

This position will be responsible for successfully managing profitable deep sewer pipeline projects for local and state governments and agencies. *The following responsibilities are intended to describe the general nature and level of work performed by employees assigned to this position. They are not intended to be an exhaustive list of responsibilities, duties or skills required. Duties and responsibilities may be added or changed as deemed appropriate by management at any time.*

- Routinely manage heavy civil construction projects valued at \$10M to \$100M and supervise a staff of 10+ people
- Oversee and review estimates developed by the estimating team
- Simultaneously manage multiple large budget projects with extensive/complex implementation challenges
- Ensure continuity, risk mitigation, and profitability through all cycles of a project
- Develop legacy client relationships that meet client needs and promote business opportunities
- Negotiate contract changes and minimize risk around scope, schedule, budget, and margin goals
- Maintain and be responsible for project financial status and reporting
- Help ensure the safety of our team – ***Everyone is responsible for safety!***

Qualifications

- Bachelor's degree in Engineering, Construction Engineering Management, or related discipline
- 15+ years of relevant deep sewer pipeline experience
- Minimum 10 years leading complex heavy civil construction projects; 5 years managing self-performed heavy civil projects
- A proven leader with a demonstrated ability and strong willingness to develop new business
- Demonstrated high-level decision-making abilities with desire to lead/participate in corporate assignments
- Demonstrated ability to manage projects profitably

Physical Demands

Ability to stand or walk for long periods; use arms and hands to reach for, handle and manipulate objects; lift and carry materials weighing up to 50 pounds. Ability to see well and distinguish between back up alarms, voices and other normal sounds consistent with construction job sites.

Environment Adaptability

Work inside and outside in all weather conditions, and various locations. Hard hat, hearing and eye protection required.
