

Wastewater Treatment Superintendent

JW Fowler is a heavy civil contractor specializing in deep sewer and water pipelines for communities on the west coast. From a small, family-owned and managed company, we've grown to serve the infrastructure needs of communities throughout Oregon, Washington, and California. Our passion for construction motivates the team to continuously grow and improve.

Specific Responsibilities

The following responsibilities are intended to describe the general nature and level of work performed by employees assigned to this position. They are not intended to be an exhaustive list of responsibilities, duties or skills required. Duties and responsibilities may be added or changed as deemed appropriate by management at any time.

- Responsible for the safety of your operations and employees
- Supervise field crews and mentor other Superintendents
- Develop site logistics plan and maintain daily record keeping
- Review construction documents for completeness and constructability
- Review and approve the balance of foremen, journeymen, and laborers
- Manage contract administration and meet with subcontractors and the field to maintain communication
- Develop a program to maintain good client relations involving staff on site
- Initiate and attend supplementary and regular meetings with clients for problem resolution and planning
- Oversee and approve monthly cost updates and quarterly cash flow projection
- Develop and implement a plan for project completion and turnover
- Collaborate with project partner Superintendents
- Ensure direct report performance evaluations are completed in a timely fashion
- Recommend organizations, policy, and procedural or staff changes
- Review and approve or reject promotions up to the general foreman
- Help ensure the safety of our team – ***Everyone is responsible for safety!***

Qualifications

- 7+ years construction experience; 4+ years superintendent or field supervisory experience installing deep sewer or water pipelines, or like projects.
- Ability to learn quickly and understand various processes and software programs
- Excellent organizational, administrative, communication, and interpersonal skills

- Strong leadership, safety, negotiation, planning, and contract administration experience
- A self-starter, who is highly motivated and able to work with minimal supervision
- Ability to build relationships with team members that transcend a project

Physical Demands

Ability to stand or walk for long periods; use arms and hands to reach for, handle and manipulate objects; lift and carry materials weighing up to 50 pounds. Ability to see well and distinguish between back up alarms, voices and other normal sounds consistent with construction job sites.

Environment Adaptability

Work inside and outside in all weather conditions and various locations. Hard hat, hearing and eye protection are required.
